

## BHOBHONONO CRECHE FACILITY

---

Address: 93290 Track, Bhobhonono

Ward: 1

Client: Community Participation

Contract Period: To be confirmed

Contract Value: R2,65 million

---

Early childhood development is a very important phase in a child's life and providing adequate facilities for children at this age is crucial.

The existing crèche facility in Bhobhonono is in extremely poor condition with holes in the roof and too little space for the number of children the facility looks after. An aluminum framed structure was half erected on the property but never completed.

This proposal looks at finishing off the framed structure and demolishing the existing mud structures and rebuilding 3 new classrooms, an office, kitchen and ablutions.

The proposal will also look at providing covered outdoor play areas as well as providing some new outdoor play equipment.

The project is currently at the end of workstage 2 and requires funding to continue.
