

NTSHONGWENI LIBRARY

Address: 258 D210, Ekwadeni, Ntshongweni
Ward: 7
Client: Parks, Recreation and Culture
Contract Period: To be confirmed
Contract Value: R22 million

The Parks, Recreation and Culture Department identified a need for a new library facility in Ntshongweni. The existing library is housed in a small container and does not adequately provide for the requirements of the local community.

The new library site is located next to the taxi rank and the proposed development aims to become a catalyst for the development of a central civic node for the Ntshongweni Community, with other community facilities proposed to be developed around it.

In addition to the library main, the facility will have a general activity room/community hall as well as an external amphitheater.

Water storage and waste treatment will be handled on site due to the lack of infrastructure in the area.

The project has been packaged and is ready for tender when the client has funding for construction.
