UPGRADING OF DURBAN CENTRAL BEACHFRONT : COASTAL REHABILITATION WORKS AND LANDSCAPING OF PUBLIC AREAS

E3: Indicative scope of work

The scope of work includes coastal rehabilitation/stabilisation works and landscaping of public areas within areas as detailed in Project Plans to be carried out in accordance with specific Quality Control Procedures.

The Coastal Rehabilitation works will include; creation and re-creation of dunes, dune stabilisation, re-vegetation and rehabilitation of the beach zone to dune forest.

Public Area landscaping will include relocation of existing trees and plant material in addition to grassing and establishment of formal landscaping to beachfront nodes.

Both the coastal rehabilitation works and landscaping of public areas will include Maintenance Programmes which will ensure that the interventions are fully establishment and self sustainable.

Training Workshops will outline the specifications and methodology for the work to be undertaken and all work will subject to inspection and approval by specialist consultants.

It is recommended that respondents familiarise themselves with the Beachfront Upgrade plans as they appear in the Final Basic Assessment Report which may be viewed on the eThekweni Municipality website at www.durban.gov.za.
