

CYCLE LAB TOUR 2007

Please be advised that the Cycle Lab Tour Durban 2007 cycle race will take place on Sunday 22 April 2007. The race starts at 05:30 at the Geoghan Cycle Track in NMR Avenue, traverses various roads within the city for a distance of 105km and finishes back at the latter track at approximately 13:00. For the safety and traffic impact reasons, some of the roads along the route will be closed to traffic whilst restrictions will be placed on others - more detail is given in the timetable below. The inconvenience caused to the motoring public is regretted and motorists, especially those from the north, are advised to preplan their journeys in the light of anticipated traffic congestions.
